334	23.10.0334	Profile All series Mini Roller Ø25	£2.25	Ea				
335	23.10.0335	Profile All series Mini Roller Ø30	£2.37	Ea				
336	23.10.0336	Profile All series Mini Roller Ø50	£2.73	Ea				
447	23.10.0447	Profile All Series HD Castor Ø150 w/brake	£22.15	Ea				

Further Information

- The profile prices above are based on a standard 6M length without cutting. We can cut to length and the cutting charge is shown adjacent to each profile. The cutting charge includes the labour involved in cutting the profile, but it's important to remember that if you buy cut profiles you will have no waste material left over.
- In addition to cutting aluminium profiles to length, it is sometimes required to perform further operations on the profiles such as tapping the profile holes or drilling for some connectors. We can process these simple machining operations for you. These are called standard end services and the prices are shown adjacent to each profile. The price shown is per process. If more complex operations are required, for example drilling holes to your drawing, this is a special operation and the price is also shown above.
- We can also carry out custom machining such as special cutting or milling. Please contact us for prices.
- We do not have minimum order quantities but we do have a nominal minimum order value of £100.00 plus VAT (Excluding Transport & Packing)
- Credit or debit card payments are accepted, subject to a 4% surcharge
- Prices do not include either VAT or Transport & Packing.
- Conveyors Direct Online Ltd. reserve the right to alter prices without notice at their discretion.

New to Aluminium Profile Systems ??

We can help you determine the right profiles and connectors to use for your application. We also have a framework assembly service available. Quotes are available upon request.
